

vCloud Enrollment

vCloud Enrollment

Last Updated: 05 Feb 2020

Background: In order to access the vCloud Director platform on CloudConnect, you must submit the [Partner Enrollment Form](#). Once this form is submitted, a CloudConnect representative will reach out to hand off your very own instance of vCloud Director to you. You will receive your requested domain, along with access to your mspCloud architecture, and the administrative ability to manage all infrastructure on your domain.

Process: Resellers and Prospects may enroll [here](#) to provision the CloudConnect Management Portal. This provides the full experience of CloudConnect, providing full access to the control panel for deployment and management of your cloud infrastructure. There is no cost to enroll. You will receive notice from CloudConnect prior to conclusion of the 30-day demo period, at which point you have the ability to continue service. If you do not choose to continue service, access to your vCloud Director instance will be revoked, and you will not be billed. If you choose to continue service, the billing period will commence after the initial 30 day demo, being billed in arrears for **any resources that you or any clients occupy on the CloudConnect platform**.

You may cancel this billing at any time by logging in to your payment portal, or emailing accounting@cloudconnect.net.

Applies to: Partner resellers, potential partners.
